

# Restroom Spic and Span Disinfection – High Hand or Touch Points

## Products Needed

Spic and Span®  
Disinfecting  
All-Purpose  
Spray & Glass  
Cleaner

## Tools Needed

- Disposable Poly Gloves
- Mop Bucket and Mop
- Paper Towels
- Toilet Brush
- Wet Floor Sign

## Frequency

Every 4 Hours or When Visibly Soiled

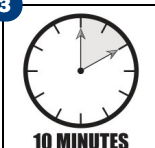

## Special Directions

Wear gloves while cleaning the restroom

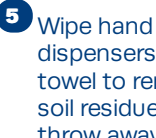

## Preparation

- 1**  Close restroom to pedestrian traffic by placing the "wet floor" sign in front of door.
- 2**  Put on disposable poly gloves.

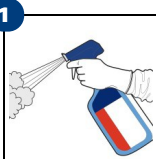

## Sink Area and Walls

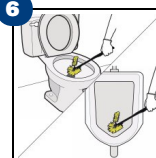

- 1**  Spray Spic and Span on the restroom entrance door handles, hand dryer/towel dispenser, soap dispenser, stall door handles & locks.
- 2**  Spray the sink with Spic and Span.
- 3**  Allow a 10 minute contact time.

- 4**  Wipe dry restroom door handles, hand dryer/towel dispenser, soap dispenser, stall door handles & locks, and sinks with ONLY paper towel and throw them away.

- 4**  Allow a 10 minute contact time.
- 5**  Wipe hand rails and toilet paper dispensers with ONLY paper towel to remove cleaning and soil residues, if needed. Then throw away the paper towel.

## Toilets and Urinals

- 1**  Spray Spic and Span onto hand rails and toilet paper dispensers, if needed.
- 2**  Spray Spic and Span onto exterior and interior surfaces of toilets and urinals, and handles/flushers.
- 3**  Spray Spic and Span in the stall floor area around the toilet.

- 6**  Scrub interior and exterior of toilets and urinals.
- 7**  Wipe the exterior of toilets and urinals with ONLY paper towel to remove cleaning and soil residues. Then throw away the paper towel.
- 8**  Remove gloves and wash hands.

every experience counts.™
